Séance 2022/10/22 - JCVD - JUL

The screenshot displays the C-A-Guitar software interface. The main window shows musical notation for a guitar piece, with a guitar fretboard visualization at the bottom. The notation includes chords and notes, with some sections highlighted in yellow. The interface is divided into several panels: a left sidebar with various icons, a central notation area, and a right sidebar with settings. The right sidebar includes sections for 'INFORMATION', 'MUSICAL NOTATION', 'SOUNDS', and 'INTERPRETATION'. The 'INTERPRETATION' section has checkboxes for 'Palm Mute', 'Accentuation', 'Auto M. Stop', 'Auto Repeat', and 'Strongest'. The bottom of the interface features a timeline and a track list.
